PRODUCT DETAILS:

Abstract sketched diamonds create a modern take on traditional Moroccan design. Hand-knotted by master artisans, the high pile feels plush underfoot. Suitable for indoor or outdoor use, our high-performance fibers make the Performance Elda easy to clean and care for, allowing for uncommon versatility. The Ben

Soleimani collection is inspired by natural variations within fibers, textures, and weaves. Every one of our handcrafted rugs is one-of-a-kind.

Rug swatches are available for a refundable deposit.

Due to the handwoven nature of our rugs, patterns and colors may differ according to size, and lengths and widths may differ from the exact dimensions on our product page. These variations are what make each one of our rugs unique, and are not defects from manufacturing. To confirm the color for your project, please order samples prior to purchase. Each screen depicts slight variations depending on your color calibration, which may alter the hue, because of this we can not assume responsibility for a purchase that has not been made prior to confirming color.

For detailed care instructions please see our [FAQ page](#).

All of our rug offerings are authentic Ben Soleimani designs, of which we are the sole proprietor. As a 4th generation rug purveyor, with over 30 years of rug innovation, the Ben Soleimani name has become synonymous with quality and craftsmanship.
